

UNIVERSITY OF SOUTH FLORIDA CAMPUS RECREATION – INTRAMURAL SPORTS

CORNHOLE Revised 1/15/09

GAME AND PLAY

Two Cornhole boxes will be set up across from one and other so that the distance between the two boards in 27 feet.

Teammates choose the same color bags and stand at the opposite ends.

Each player stands next to the boxes and tosses bags to the other box. An imaginary line runs parallel to the front of the platform and serves as a boundary for the player's stride. Each player on one side gets 4 bags and alternative turns between players. The person who throws first is decided by whichever team scored last. If a bag is ever in contact with the ground, it does not count and should be removed from the board.

SCORING

Each bag on the board = 1 point / Each bag in the hole = 3 points.

Points cancel each other out (Example: Team A scores 5 points and Team B scores 2 points. The total for Team A would be 3 points and the Team B would have 0 points.).

The first team to 11 points wins the game. Teams must hit exactly 11 points to win the game. Teams, who hit above 11 points, will then be knocked back down to 7 points.

The championship match will be played to 21 points.

The tournament format will be based on the number of entries.
