

June 2008 Tip of the Month

A Tip from *The Benefits Expert*

You can get great discounts on prescriptions at Wal-Mart, Target and Publix Pharmacies?

Some prices are less than the health insurance prescription co-pays you pay now, even if you order by mail.

[Wal-Mart](#) and [Target](#), [Sweetbay](#) Pharmacies offer over 300 prescription drugs at just \$4 for a 30-day supply, or \$10 for a 90-day prescription. Ask your doctor about switching to the appropriate generic medications.

[Publix Pharmacy](#) offers a terrific deal on certain antibiotics. New or current customers can bring in their prescription for oral antibiotics and receive antibiotics *FREE* – up to a 14-day supply. There are *no limits* on the number of antibiotics prescriptions you can have filled. And they're free, regardless of your insurance provider.

These are just a few examples of the current trend toward value-added services offered by local pharmacies, with no insurance necessary. Next time you're out, stop by your pharmacy and ask if they have a discount program. Start saving now!
