

## **MEMORANDUM**

**DATE:** September 8, 2006  
**TO:** University System Community  
**FROM:** Gail B. Evans, OASIS Functional Project Director  
**SUBJECT:** OASIS B7 UPGRADE UPDATE

---

OASIS is scheduled to undergo a major system upgrade, November 10-12, 2006. We will be moving from the current version 6 of OASIS to version 7. This upgrade is necessary to allow USF to remain compliant with Federal Financial Aid requirements and remain on a supported software version.

Due to financial aid implications, it is critical to the business of the university that this upgrade is operational by early February 2007. If we are unable to implement this fall, a contingency schedule has been established for early spring 2007.

This upgrade provides new functionality that can improve the delivery of services to USF students, faculty, and staff. Version 7 operates on the Internet Native Banner (INB) platform, the current OASIS web-based platform, to which the University System switched (from client server) in May of this year.

An upgrade of ORACLE J-Initiator will be required for version 7. If you have administrative rights to your pc, the j-initiator upgrade will occur automatically the first time you login. Simply follow instructions for completing the upgrade. If you do not have administrative rights to your computer, please contact your local department/college computer support technician to install the j-initiator upgrade.

The look and feel of OASIS changes with this upgrade. On the following page are two screen prints of the General Student Form, SGASTDN. The first is the current version of SGASTDN and the second displays what it looks like in version 7. We are currently in user acceptance testing resolving any issues identified within this new environment. I encourage you to take some time, prior to the Upgrade to familiarize yourself with this new environment via the following testing links:

- UAT72 Test Instance: <http://shimadev7.fastmail.usf.edu/inb/UAT72>
- UAT72 Self Service: [http://shimadev7.fastmail.usf.edu:8287/pls/uat72/twbkwbis.P\\_wwwlogin](http://shimadev7.fastmail.usf.edu:8287/pls/uat72/twbkwbis.P_wwwlogin)
- UAT72 Student Schedule Search: [http://devel.registrar.usf.edu/ssearch\\_uat72/](http://devel.registrar.usf.edu/ssearch_uat72/)
- UAT72 Staff Schedule Search: [http://www.usf.edu/ssearch/staff\\_uat72.asp](http://www.usf.edu/ssearch/staff_uat72.asp)

If you experience any problems, please log issues on the User Testing Problem Resolution Form, GWAPROB, in the UAT72 test instance by typing this application name in the 'Go To...' field at top of any menu screen. Project team will address accordingly. If you have problems accessing the UAT72 Test Instance or UAT72 Self Service, please contact your local department/college computer support technician or the IT Help Desk at [HelpDesk@admin.usf.edu](mailto:HelpDesk@admin.usf.edu). If you have any issues with the Staff or Student Schedule Search, please contact Jason Lehman for support at [jlehman@admin.usf.edu](mailto:jlehman@admin.usf.edu).

*Gail B. Evans*
